PROFESSIONAL SUMMARY

Results-driven AI Developer and MCA (Data Science) student with hands-on experience building and deploying production-grade AI systems. Proven track record of creating multi-agent architectures, RAG pipelines, LLM-powered automation tools, and live AI dashboards. All major projects are live and publicly accessible. Certified by Google, AWS, IBM, Meta, and DeepLearning.AI. Actively seeking internship and full-time roles in AI Development, Automation Engineering, or Generative AI.

4 Live Deployed Projects | 7 GitHub Repositories | 8+ Industry Certifications | Multi-Agent AI Systems

TECHNICAL SKILLS

Languages	Python, SQL, MySQL, JavaScript, HTML5, CSS3
AI / GenAI	Generative AI, RAG, LangChain, LangGraph, LLMs, Multi-Agent Systems, Prompt Engineering
ML Libraries	Pandas, NumPy, Scikit-learn, FAISS, TensorFlow, PyTorch
APIs & Models	Groq API, Gemini API, AWS Bedrock, OpenAI API, LLaMA 3.3 70B
Web & Viz	Flask, Streamlit, Power BI, Tableau, Matplotlib, Plotly
Cloud & DevOps	AWS (EC2, S3, IAM), Railway, Render, GitHub Actions, Git
Databases	SQLite, MySQL, Vector Databases, FAISS

KEY PROJECTS

AI Automation Hub — Email Intelligence & Automation System

Tech Stack: Python, Groq API, LLaMA 3.3 70B, Flask, SQLite, Railway

- Built end-to-end AI email automation system that classifies emails as hot leads, cold leads, support, spam, or partnerships with 95%+ accuracy using LLaMA 3.3 70B via Groq API
- Engineered automated reply generator producing professional, context-aware email drafts — saving businesses 4-6 hours of daily manual work
- Designed real-time Flask dashboard with live stats, email feed, and AI-generated replies; fully deployed on Railway with public live URL
- Implemented hourly autonomous scheduler — zero human intervention required after setup

Live Dashboard: ai-automation-hub-production.up.railway.app | GitHub: github.com/wyldex3ml-pro/ai-automation-hub

Aegis AI — Autonomous Enterprise Incident Commander

Tech Stack: Python, LangGraph, RAG, Groq API, Multi-Agent Systems, Vector DB, Render

- Architected autonomous multi-agent system using LangGraph for enterprise incident detection, triage, and resolution without human intervention
- Integrated Retrieval-Augmented Generation (RAG) pipeline with vector database for intelligent knowledge base search during live incident response
- Deployed full backend API on Render — publicly accessible and production-ready with real-time AI decision making
- Reduced Level-1 incident response time by automating classification, escalation routing, and resolution suggestions using coordinated AI agents

Live API: aegis-ai-cr2u.onrender.com | GitHub: github.com/wyldex3ml-pro/aegis-ai

VigilanceAI — Production AI Surveillance Platform

Tech Stack: Python, Streamlit, Flask, Semantic Search, Vector Database, Render

- ▶ Built production-grade AI surveillance platform with real-time threat triage, semantic search, and intelligent event routing
- ▶ Deployed separated frontend dashboard (Streamlit) and backend API (Render) — fully live and publicly accessible
- ▶ Integrated vector database for semantic similarity search enabling rapid threat identification across large event streams
- ▶ Designed intelligent routing system that categorises and escalates security events based on AI-assessed severity and context

 **Dashboard:** wyldex3ml-pro-vigilanceai-dashboards-q9celx.streamlit.app | **Backend API:** vigilanceai-vt78.onrender.com | **GitHub:** github.com/wyldex3ml-pro/VigilanceAI

AI Developer Portfolio Website

Tech Stack: HTML, CSS, JavaScript, Generative AI, Render

- ▶ Designed and deployed a professional AI developer portfolio showcasing all live projects, skills, certifications, and GitHub repositories
- ▶ Built with custom UI reflecting GenAI branding — fully responsive and publicly hosted on Render
- ▶ Serves as a central hub for recruiters and clients to explore live demos, GitHub repos, and contact information

 **Live Portfolio:** ai-portfolio-i4cj.onrender.com | **GitHub:** github.com/wyldex3ml-pro/ai-portfolio

INTERNSHIP EXPERIENCE

Software Developer Intern | IndiaTech Software

Jun 2026 – Aug 2026 | 2 Months

- ▶ Contributed to software development tasks including coding, testing, and documentation following industry best practices
- ▶ Collaborated with cross-functional development team on software projects; improved code quality through structured review processes
- ▶ Gained hands-on experience in real-world software development workflows, technical platforms, and project delivery

EDUCATION

M.C.A. — Data Science | MIT College of Management, Pune

2025 – 2027

CGPA: 7.77 / 10

B.C.A. — Data Science (Full Time) | MIT Art, Design and Technology, Pune

2022 – 2025

CGPA: 7.02 / 10

CERTIFICATIONS

- ▶ **Introduction to Artificial Intelligence (AI)** — IBM via Coursera
- ▶ **Getting Started with AWS Generative AI for Developers** — Amazon Web Services via Coursera
- ▶ **Introduction to AI** — Google via Coursera
- ▶ **AI For Everyone** — DeepLearning.AI — Andrew Ng
- ▶ **Claude Code in Action** — Anthropic / Skilljar
- ▶ **Database Structures and Management with MySQL** — Meta via Coursera
- ▶ **Python Data Structures** — University of Michigan via Coursera
- ▶ **Introduction to Cyber Attacks** — New York University via Coursera

TRAINING & WORKSHOPS

- ▶ **Artificial Intelligence & Machine Learning Tools** — MIT ADT University | Apr 2026
- ▶ **Data Cleaning and Preprocessing in Machine Learning** — MIT ADT University | Jan – Mar 2026
- ▶ **AWS Services Workshop** — MIT College of Management, MIT ADT University | Oct 2025

ACHIEVEMENTS & ACTIVITIES

- ▶ Completed 8+ industry certifications across AI, ML, AWS, Databases, and Cybersecurity from Google, IBM, Meta, AWS, and DeepLearning.AI
- ▶ Built and deployed 4 live production AI systems — all publicly accessible via live URLs — demonstrating real-world engineering capability
- ▶ Developed multi-agent AI architecture (Aegis AI) and production surveillance platform (VigilanceAI) far beyond standard curriculum requirements
- ▶ Participated in AI/ML technical workshops and training programs at MIT ADT University
